Rockford, IL 61107

Fri. – Sun., August 17-19, 2018
Tour to Model A Day in
Amana, Iowa

Membership Moment

By 2018 Marketing/Membership Director Jay E. McCord

I AM PLEASED TO ANNOUNCE A NEW IDEA to help you recruit new members for MAFCA: the Blue Oval program.

Approved at our February Board meeting, this program will recognize every MAFCA member who brings a new member into the club. When you do so, you automatically become a Blue Oval Member for 2018.

Not only does this include bragging rights, but you will also receive a letter of thanks — and a Blue Oval Member sticker to display on your windshield.

Additionally, we will be holding a quarterly drawing for a Model A-related prize.

As you know, I have been working hard to spread the word about our great club. Still, there are many Model A owners who have never heard about MAFCA, and who would love to join in the fun and receive our help and support.

If we can all set a goal to become a Blue Oval Member, we will help to strengthen not only our local chapters, but also the national club.

As always, please feel free to contact me at 805-598-8133 or membership@majfa.com. Happy Motoring!

— Jay

Please review your contact information for the roster and notify Anne Laviolette of any changes. **THANK YOU!**

Treasurer's Report is available on request

Dwayne E. Meier, Treasurer

Glimpse from the Gavel

The Rockford-Ford A's are on the move again. Longtime members Wendell Anderson, Dave Werckle and their wives planed an overnight tour to Peoria, IL. There were 7 Model A's, a 57 Chevy and a modern van. We lined up and left the Byron McDonald's at 7:00 AM. Trouble started early. The blacktop country road "the planners" traveled on during their trial trips was being coated with tar. A new route was chosen and we were again on our way - traveling southeast to Peoria. Prior to arriving in Peoria, there was word of a breakdown. The "forward" cars continued to the next town where we could safely pull off the road. The cars in the rear stopped to help. A roadside repair wasn't possible, the car was transported to a nearby gas station. Member Lee Laviolette traveled from Roscoe to retrieve the disabled car with a trailer. Members helping members!

We were met in Peoria by some members of the local Club led by Kay Lee, a National Director in MAFCA. They led us to a tour of a plastic vacuum forming factory which fabricates parts for Caterpillar. We then traveled to a local outside drive-in for a late lunch followed by a scenic tour of a high-perched park looking over the Illinois River. Then off to some historical areas. The evening was topped off by a great dinner at a local golf course. The next morning we were lead to the Caterpillar museum for a tour. Very interesting. After an introductory video, we viewed both old and new pieces of equipment. Great tour! That afternoon some stayed for lunch and others returned home without issues.

Memorial Day was a HOT one - 16 Model A's made it to the Pecatonica Parade. Although there were some overheating issues, we all made it through. After the parade, we were treated by shade, cake, ice-cream and cookies at Charlie and Flo Monk's. What a fun day! The May regular meeting drew 51 in attendance. Co-President, Jim Morley ran a great meeting and demonstrated both old and new universal joints and Ron Lanquist demonstrated a steering column support. Folks...If you're not attending events you're missing out on a LOT of FUN and activities - Can't wait for Sharon Model A Day!

Happy motoring, Jim & Ron

Let's Join These Tours with the Rockford Chapter of Model T Ford Club International

Sunday, June 10 – Dairy Breakfast at a Local Farm

Sunday, July 22 – Surprise Tour

Saturday, August 11 – Steam Show in Sycamore, Illinois

Monday, September 3 – Labor Day Presidents Tour

Sunday, October – Pumpkin Tour

Editor's Extras

Dear Members,

Next month's issue marks my 10 years as editor of your newsletter! It has been a joy and privilege to bring interesting Club news and features to you. However, it time to "pass the baton" on to someone who will take over this position. The format of the newsletter can be simpler with the basic information you have come to expect. Anyone with a few computer skills on a Word program can do this job! Please contact me. My last issue will be September of this year. I will be happy to mentor the new editor for the October and November issues.

Drive safely,

Chris Aupperle, Editor

May 29, 2018 Meeting Minutes

submitted by Anne Laviolette, Secretary

1. Pledge of Allegiance.
2. Welcome members. 51 in attendance. Welcome new member Joe Maurer!
3. Thank you to Tony and Alice Whitney for the delicious cookies and treats! Thank you to Bill and Chris Aupperle for making the coffee and setting up! Thank you to all the members who help set up and take down for our meetings!
4. Social Concerns: Terry Clark is recuperating in Morning Star Village.
5. Treasurer's report –available on request.
6. The portable "ahooga" horn for the "Old Towne Band" performance, assembled by Charlie Monk and Ron Lanquist, was not used because it was too loud.
7. The Overnight Spring Tour to Peoria was a well-attended and very interesting tour. Our thanks to Kay Lee and the Central Illinois A's for hosting us and helping to set up the tour in their area! We toured Shamrock Plastics, Washington Historical Society, and the Caterpillar Visitor Center (quite the HUGE mining truck in there as well as some interesting antique Cats!).
8. Bill Aupperle said they are expecting a lot of registered cars at the National MARC Meet in Branson, MO. The host hotel is filled up but there is still room in neighboring hotels. There will be about 85 people attending the Fashion Seminar.
9. Bob Bellard asked if the club was interested in participating in the Polo parade on June 17. There was not much interest in going that far on Father's Day.
10. Past events: Jefferson Swap Meet – not many Model A parts; Little Hershey – Model T parts, not much for A's; Memorial Day Parade in Pecatonica yesterday was a scorcher! Everyone who made it to the parade made it through, but there was some overheating. Thanks to Charlie & Flo Monk for ice cream, cake & cookies!
11. Upcoming events: Model A Day in Sharon, WI on June 3; National MARC Meet in Branson, MO on June 24-July 1; Faith Lutheran Cruise-In in So. Beloit on June 30; "Let Freedom Ring" Parade in Mt. Morris on July 4; Cars That Time Forgot Car Show at Lake Lawn Resort on July 8; Iola Car Show and Swap Meet on July 12-14; ByronFest Parade on July 15; Vintage Transport Extravaganza in Union, IL on August 5; Annual Club Picnic in Martin Park on August 11; Model A Day in the Amana Colonies on August 17-19; Central Christian Church Car Show on September 8; Roscoe Lions Fall Festival Parade on September 9; Model A Day at the Gilmore Museum on September 15; Beloit Autorama on September 16; Stillman Valley Fall Festival Parade on September 23; Fall Jefferson on September 28-30; Fall Tour-October ?; Annual Fall Banquet on November 11.
12. Everything is in place for Model A Day in Sharon, WI on June 3. We moved the swap meet vendors 1 block east to give us additional parking for cars (Mike Peters will arrive early to help them park), added a 50/50 raffle, have a carburetor (donated by Jim Morley) and distributor (donated by Ron Lanquist) for the other raffle (winner's choice), and the new hats are here and ready for sale. The dash plaques are ready.. Sign-up for the various duties. Volunteers needed to arrive by 6:45AM for tent setup and traffic control. Past years' dash plaques will also be available for those who want to give to the "Donation Jar", for the Downtown Sharon LLC. The Ehrenhofer fire truck and the fruit truck will have special parking places. Proceeds from the fruit truck sales go to MARC Youth Organization. We will be hosting the Rockford Model T Club for a picnic in Martin Park at 4:30 after Model A Day.
13. Everyone should think about new Officers for 2019. The current Officers are in their 2nd year now.
14. Chris Aupperle will also be stepping down from Newsletter Editor after a run of 10 years. She has done a wonderful job and will be hard to replace. Chris will be happy to mentor whoever decides to take her place.
15. Dave Clark spoke about his use of the new head puller that the club purchased late last year. He had the head off in 5 minutes without the usual prying and damage. Great addition to the tool crib!
16. Rubber chickens were awarded to Dave Clark, who cracked the head on his Tudor on the way down to Peoria, and Ron Kramer, who "fried" his condenser on the way home from the Memorial Day Parade in Pecatonica. Display those chickens proudly, guys! It means you are driving your cars!
17. Plans to attend the 2019 National MARC Meet in Dearborn, MI – Aug.4-10.
18. Car repairs: Jim Morley is going to pull his engine next week to try and cure his oil leak (2 quarts in 325 miles).
19. Winner of the attendance drawing was Art Leverington.
20. Chris Aupperle showed a PowerPoint presentation on "Home Crafts and Fashion Arts in the Model A Era" that she will be presenting at the National MARC Meet. Great job, Chris!
21. Saturday Breakfast Club and monthly Dinner Club continue. Contact John and Sue Hausen for details.
22. Club vests are 1 free to member (\$17.00 for an extra) from Kathy Forbes; club patches (\$4) and Rock-Ford A's metal license topper (\$20 unpainted / \$25 painted) from Dwayne Meier; contact Lori Weber for embroidery (\$10).
23. The next monthly meeting will be Tuesday, June 26 at 7 PM at Central Christian Church.

Tech-Tip: “Keeping Moisture Out of the Distributor”

Contributed by Bill Aupperle

Have you ever driven your Model A in the rain, and have it “act up?” First the car begins to periodically “skip.” Then it begins to really run rough, until it just dies! The cause could be moisture in the distributor. Well, this is a common problem in cars without electronic ignitions. Usually, the humidity level in the atmosphere is something the hot engine “burns” off before coming in contact with our distributors. But, when it rains, there is just too much moisture in the atmosphere and the inside of the distributor cap will begin to “sweat.” This in turn causes moisture droplets to fall onto the points, thus interrupting the flow of electricity between the ignition coil and the spark plugs. Generally, if you can get the distributor dry, you can go on your merry way. But how to solve the problem before it happens is the real question. Nobody wants to try to stand in a downpour over a hot engine and try to dry out their distributor! WD-40 is the answer!

It was developed in 1953 by Norm Larson, founder of the Rocket Chemical Company, in San Diego, CA. WD-40, from the abbreviation “Water Displacement, 40th formula,” was originally designed to repel water and prevent corrosion. If every 3-4 months you will open up your distributor and spray the underside of the cap and down into the distributor and the tops of the spark plugs and the plug “wires,” a rain shower will never leave you sitting by the side of the road waiting on AAA!

Fashion Fun: “Taking Your Measurements”

By Lois Przywitowski

The warm, gentle breezes of summer are almost here. Soon, Model A’s and their devoted owners will gather together at the National Convention in Sparks-Reno, various regional meets and local club activities. Events like these offer the perfect opportunity to dress as though we belong in the Model A era. But how does one achieve that look? Start by getting your measurements. Your measurements are useful in selecting and sizing your pattern, sewing your garment, and measuring garments before trying them on. Some of the meets offer a Fashion Boutique where you can purchase era or era image clothing. Before you try on an era garment, measure the shoulder, bust, waist and hip areas of the garment. Doing so will not only save you the frustration of trying on a garment that is too big or too small, it can save the garment itself. The following measuring instructions for women, men, and children are from *The Art of Dressmaking*, published by Butterick in 1927. The lovely thing about taking your measurements is that the method of doing so doesn’t change with the year.

WOMEN AND GIRLS

BUST - The bust measurement should be taken from the back. Measure over the fullest part of the bust, close up under the arms and straight across the back. If the tape is held too high at the back, the measure will be too large; if too low, it will be too small.

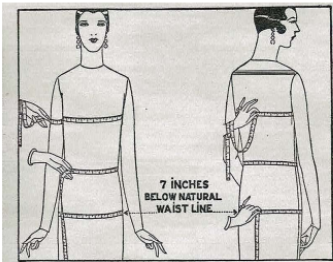

BACK - Measure across the back, about 2" below the neckline.

WAIST - Take the waist measurement at the natural waistline.

HIP - The hip measurement should be taken from the back. Measure about seven inches below the natural waistline.

ARM - Take the arm measurement around the largest part of your arm, about one inch below the armhole. For arm length, measure from top of your arm to your wrist, with your arm slightly bent.

NOTE - In taking the bust, waist, hip and arm circumference measurements, the tape should be close, but not tight.

MEN AND BOYS

CHEST - Take the chest measurement around the body close under the arms.

WAIST - Take the waist measurement at the natural waistline.

HIP - Take the hip measurement around the fullest part of the hip. The tape should be easy, not snug.

NOTE - For both the chest and waist measurements, the tape should be snug, but not tight.

At least once this summer, have fun dressing up, just like you did when you were a kid!

MAFFI Newsletter Minute

There has been some recent redecorating in the Parts Department of the Museum. There had been a donation of 4 framed color drawings and John Marshall was inspired by those to recreate the "New" signs as seen in the photos. Once those were done, they were hung alongside the donated drawings, reframed and looking like the original pictures. We are always striving to keep our museum fresh and new for those returning to the museum for another look and especially for those who are coming for the first time. If you have been thinking about a trip to the museum, why not make plans to join us for Model A Day, September 15, 2018. If you can't make it for Model A Day, the museum is open 7 days a week. Anytime you happen to be in the area, come by for a visit.

Thank you for your continued support of the Model A Ford Foundation by both item donation and monetary support.

Marsha Quesnel
MAFFI Trustee

MARC Discount Membership Program Has Been Extended!

Following the success of the 2017 MARC 1/2 price sale (\$22.50 for NEW members who also join a Region), the Board of Directors has voted to extend the program for 2018! This is great news for MARC, your Region, and NEW members!

Just \$22.50 buys a NEW member who also joins a Region a full year membership in the best Model "A" club on the planet.

Recruit now!

This will be a hub and spoke tour of the Redrock Canyonlands of Southern Utah and Northern Arizona. The tour will be based out of Kanab, Utah and travel through national parks and monuments of the area. The Canyonlands is home to miles of river canyons, mesas, buttes, slot canyons and brilliant red rock faces and peaks. We will tour through Bryce Canyon, which sits at the northernmost part of the Grand Staircase and stretches to the north rim of the Grand Canyon, Bryce Canyon, Zion National Park, and the Grand Staircase-Escalante National Monument. Registration materials will be available in "The Restorer" and on the MAFCA website in early 2019.

MEMBER'S CORNER: CHARLIE MONK'S SPORT COUPE

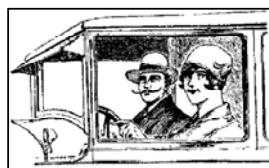

I got my Sport Coupe from Dr. Mike Werckle several years ago. It was in pieces and didn't have any of the brackets to hold the top together. I made all the brackets and restored all of the car and got it ready for painting. I had it painted, bought an upholstery kit and top. I assembled the car, did the upholstery and top. I spent between 2 and 3 years putting it together and have had it on the road for about 16 years.

PAST EVENTS: SPRING TOUR TO PEORIA

The Rock-Ford A's started their tour by meeting for breakfast at the McDonald's in Byron. It was a beautiful morning as we drove past the Byron Nuclear Plant most of us awed at the size of the two stacks! Road work ahead forced a reroute to save our cars from a fresh oiled road. From there it was smooth sailing until Dave Clark's new motor overheated and had to be trailered home. Thanks to Anne's husband Lee for the rescue. We met a set of twin high school graduating young men who were very excited to see and talk to the owners of our Model A's as they were one year into rebuilding their own "A"! Several Peoria club members met us at our hotel and led us to a plastic molding plant for a great tour. Then on to Lou's drive-in for a late lunch and a tour of the Washington, Illinois Historical Museum and Doctor's Office. The next day we headed to the Caterpillar Visitors' Center and Museum. The tour started with a greeting and movie in a forty-seat theater in the dump bed of a huge reproduction mining truck with 14' tires! Trucks this size are assembled on site at the mine. They will run 24 hours a day for their lifespan of 20 years only shutting down for scheduled maintenance. There was much to see and heavy equipment operating simulators to test our skills at playing in the dirt. We headed off to lunch and then thanked our Peoria hosts before heading for home. It was a great way to start the 2018 season.

Thanks to Wendell & Sharon Anderson and Dave & Sara Werckle for planning this trip!

PAST EVENTS: MEMORIAL DAY PARADE IN PECATONICA, ILLINOIS

With temperatures soaring into the upper 90's overheating was the main concern at the 2018 Memorial Day Parade in Pecatonica Illinois. In fact, two cars had to turn around and head home because of overheating before even reaching the town. For the 15 cars that made it to the staging area, it was time to check the radiator level and prepare for the parade. It was a long, slow..... drive down the spectator lined streets of Pecatonica, with horns "ah-ooo-ga-ing" that magical sound everyone loves. Waves and cheers rang out. Spectators gave us the thumbs up and shouted compliments about our cars. A couple of cars had to have water added to radiators, but we all made it through the parade. Ron Kramer earned a rubber chicken returning home when his points and condenser gave out. Several of us had to turn the air conditioning on high by opening the driver's door to get better air circulation. Flo and Charlie Monk opened their home to the Club members after the parade for a very well- received ice cream social with the addition of Flo's home made cake..... Oh it just doesn't get any better than Flo's baking! As we devoured the cake and ice cream, we had a great social gathering talking about how we beat the heat. It was really another wonderful Rock-Ford-A's gathering.

Thank you, Flo and Charlie!
Contributed by Al Pedersen
